Ir will be seen from our news columns that the great soldier's reunion at Mt. Vernon has been an immense sue cess, calling together such crowds of ANOTHER WASHINGTON MONI MENT Colonel Roberts to President Hayes, people as the little city never before held in its borders.

Way didn't the Sun publish a little more of George Yates' speech, delivered at the Reform Club meeting last night? The impression seems to be gaining ground that George is not a thoroughgoing prohibitionists, but is still time tured with Republicanism. In that the reason the Nan sings so mild on the speech ?

THE farmer who sees lying in crushed pieces the expensive reaper which it has cost him much pinching economy to procure, or beholds in flames the wheat stack that represents to him a year's hard labor and painful solicitude, is not likely to be calmed by any theories about the debasing influences of laborsaving machines or other communistic nonsense. The conclusion in his mind will be instantaneous that the tramp problem is to be treated in the same manner as the potato bug and the grass hopper problem- that is, by extirpation, and he will set about that heroic treat ment with the same relentless energy that he goes about the administration of Paris-green to the enemy which is devonring his potatoes, and when he does this he will have the moral support of the majority of the people. - Toledo Commercial (Rep.)

CONGRESSMAN FOSTER, charged by a and told the following story President has never followed my advice way. (larfield and I were talking one day about the strange conduct of Hayes in never doing anything we wanted, and we were both speaking of Matthews as being fortunate in getting everything he wanted. While we were talking up comes Matthews, and his first words were: 'Here, gentlemen, I wish you would go to the President about this matter, for I can do nothing with him, and then Matthews took out a lot of papers, and we broke out in a laugh'

Ir is said that the principal campaign document sent out by the Democratic committee is a garbled compilation of Jim Anderson's testimony. Mark Twain, in one of his stories, tells of his conflict ing emotions as he saw his father pull the trigger of an old musket which had been loaded to the muzzle. It was a tremendous experiment, and as Mark saw his disabled progeniter go heels over head over the fence he realised the necessity of immediate absence on his part The Democratic committee sending off Anderson's testimony occupies an attitude similar to that of Mark Twain's daddy, and a similar catastrophe will

UNWARRANTED CLAIMS AGAINST TELECRAPHIC

The Illinois Claims Commissioners, in session at Springfield, have for a few THE SCOURGE. days past been hearing arguments in favor of claims against the State, grownois and Michigan Canal, some forty ITS ALARMING SPREAD years ago or more. Yesterday Chief Justice Craig, of the Claims Commission, rendered a general opinion against these canal claims, as follows: The court stated the basis of the

claims to be, first, that claimants had been once paid in canal scrip, which they sold at only 25 cents on the dollar. They now claim for the loss of this 75 per cent. They claim, secondly, for prospective profits, or the profits they might have made on the contracts. The court held that the claims were barred by the statute of limitations of 1847, which statute has never been repealed. There is nothing in this record from which we can determine whether the claims have been proved up and filed in secordance with that act. It is a question of fact, as the record stands, they steamship Suevia. He is accompanied do not present a claim. But, if the claims had been proved up and filed, as provided in that act, it appears that the Legislature, in 1855, created a commission which heard the evidence and made their report to the Legislature. The noblest work of Hod, an honest man, has been found in Philadelphia - William Purvis as his mana. His mants came to light in this wise. In 1832 the came to light in this wise. In 1832 the corner-stope of a Washington monument was laid in that city, \$40,000 to \$40,000 was subscribed, but the work was sucpended It was thought the money was squandered But not so. Mr Purvis, the squandered But not so. Mr Purvis, the treasurer of the fund, a few days since applied to one of the courts for instruc-tion as to its disposal. It has been left at interest, and, with its accumulations, is now subject to the order of the court. The corner-stone of the said intended

monument was laid in Washington Square, with great pomp, on the hun dredth anniversary of Washington's birth, but that is all that was ever done in the matter. The fund ought now to be considerable - sufficient to erect a modest but creditable monument; and it is to be hoped it will be devoted. to that purpose, under instructions which will require the completion of the monument on whatever plan may be adopted for it, and compel the execution of a binding contract by the build er for such completion. Otherwise it will probably be squandered after all the long faithfulness of its custodian, and nothing left to show for it but the colossal foundation of a pile destined never to be finished.

> WASHINGTON, D. C., August 15. It is more than likely that the Government of South Carolina will secure the per son of Senator Patterson, at an emly day, to answer charges against him. A prominent official of that State, now in the city, said this evening that he would not be at all surprised if an attempt in that direction was not made soon.

Judge Youmans, Gov. Hampton's At torney General, in talking this evening about the political situation in South Carolina, said that the Democrats, of course, had the State Government irretrievably in their hands. This was shown by the fact that the recent Repub lican State Convention adjourned without placing any ticket in the field. This did not, however mean that the Republican party was dead. On the contrary, it was very active. It was plain enough to see that any attempt to secure the State officers would be a signal failure, and they had, therefore, determined to work for other aims. These were for a majority in the State Legislature and for Representatives in Congress. Out of the five Congressional Districts in the State, four of them were very close ones, and the Republican party of South Carolina had almost an equal chance with the Democrats for carrying them. They also had more prospects for secur ing a majority in the State Legislature. The Republican party in South Carolispirits. After this proceeding speeches | na was not dead by any means, said were made by Gen. Sherkan, Senator Judge Youmans. They only saw the futility of any effort to heat Wade Hampton, and, in fact, the majority of them are entirely satisfied with him.

### THE HENKLE TRIAL.

This morning upon the epening of court and the call of the case it was ascertained that Dr L P. Griggs, an impor tant witness for the presecution had gone to Chicago, and as the state's attorney did not wish to go to trial without assurance that the doctor would be in attendance there was a stay of proceedings until the absent witness could be heard from by telegram

In the meantime an affidavit was prepared by the prosecution asking for a continuance, which was read to the court At the conclusion of the reading of the affidavit, State's Atterney Buckingham had a consultation with W C Johns, Esq , his associate counsel, and then said to the court that the receipt of a telegram had changed their plan and that he would ask for an attachment for Dr Griggs --The attachment was granted, and Constable Block left with it for Chicago by the 11 45 train.

The examination of witnesses then commented, the first called being Mrs Histor, mother of the deceased girl

The examination of Mrs Hiser occupied nearly an hour, and following her was her husband, who was upon the stand for only a short time, after which the court ad fourned at noon. Upon the re opening of court Miss Alida Hiser, a sister of deceased, was called, whose examination in chief secured by buying a pair of Newport occupied fully two hours and is in pro-

TO BE ABBRESTED BY WHOLESALE The police of the city are getting a list of the names of hops who louf about the depots and make a practice of jumping upon moving trains of cars, with a view to arresting them and locking them up. The railroad officials and employes are assist ing in this matter and already a list of forty or more names is in the hands of Deputy Murshal Brockway, who will, when he shall get the names of all the boys who indulge in the dangerous practices named proceed to take them into ustedy The liabit has become so common and the danger attending it is so great, that it has been found necessary to tike these steps Boys have been warned again and again, and they have been ordered to desist a great many times but as they pay no attention to warnings or orders, more decisive measures are to be adopted. Parents who may wish to save then hoys from arrest will do well to take the matter in hand at once and personally see to keeping their children away from the radroad Not only will jumping upon the cus subject boys to accest, but lottering about the depot will be consider ed a sufficient reason for taking them into custody.

THE NEW HOLE. There seems to be some difference of opinion as to the best oration for the new hotel, in case one should be built. The block north of the park is one site named, another is the old Revere House site and we have heard a tumor that Mr Powers had made a gen crous proposition to have the hotel occuby the ground south of the court house, where his stable now stands. Another place is the corner of North Water and buildings which have stood there for sevdesirable in some respects, and each has the fire is not known its advantages

STABLE BURNED -Last Tuesday morn mg Mr George Page, of Friends Creek, was preparing to leave home for a few hours, and his little boy, probably about right years old, wanted to go with him— Mr Page refused to let the boy go, which greatly displeased the lad, and he threat end to burn the buildings as a revenge. The father thought nothing of the threat, but went away as he intended. After he had gone, the boy, true to his threat, got a match and fred the stable, which, with a stack of oats, and one of rye, that were near the stable.

• CIT OFF THE LOW LAMBS -The carry ing out of the order of the City Council in regard to cutting away the limbs of trees which hang over the aidewaks low enough to interfere with umbrellas, will require no little labor if left to the city. The better way is for each man to clip the trees upon his own premises, and he can then do it to suit himself. There is senter ly a street in the city where there are not more or less overhanging limbs low magh to interfere with raised umbrellas, and in many cases they are so low is to hit the hats of pedestrems. The order for their removal is a good one, and should be promptly attended to

MOULD ON GRAPPS We hear some complent of a kind of mildew or mould which gathers upon grapes, rotting them before they ripen. To what extent this previle we are not advised, but in view of the fact that such a thing exists, it would be well to remove from the vines the surplus leaves so as to let in all the sunlight as possible, which will have a tendency to remove the dampness, which may have something to do with producing the mould. The grape crop should be lool od after

A LIVELY SPEECH -At the meeting of the Reform Club last night George Yates, the well-known colored speaker, made a speech which did not go down well with those who are endeavoring to run the re form movement into politics He said he had been considering the question of prohibition, and though he liked temperance he could not make up his mind to descri the Republican party, which had made him a citizen. He said his idea was to have temperance in all the political par ties, so that no man need go away from home to get it. He said that to the Re publican party his race owed their free dom and their citizenship, and he could not vote any other ticket when political issues were involved. At this juncture some one cried out, "And will you vote for Forstmyers" George pithily replied something after this fash ion "Last spring I had to vote for a Democrat for Mayor in order to get my temperance in, and now I propose to make things even by voting for a candidate who is not a blue ribbon man in or der to get my politics in " This did not sult some of the head centies of the new party, and they labored faithfully with the incorrigible colored brother, to convincehim of his error, but in vain And that's why his speech was not reported more fully in the "organ"

Bloomed and faded years ago. How we met and how we parted, None on earth can ever know; Nor how pure and gentic-hearted Beamed the mourned one years ago.

Like the stream with lilies laden Will life's future current flow, Till in heaven I meet the maiden Fondly cherished, years ago.

Hearts that love like mine, forget not -They're the same, in weal or woe, And the star of memory sets not In the grave of years ago.

The Captain's Order.

Memphis (Tenn.) Avalanche. The Captain's company had not see much service, and one morning the Federal cavalry surprised them. The boys eral cavalry surprised them. The boys did the best they could; they broke, rau, rallied in squads and fired. Bome of the boys were wounded, a few were killed.—The Captuin, who was red-headed, ran on foot (as he lost his horse) until his face was as red as his hoad. He saw the crisis so he took his position in the middle of the road, and waving his sword he made this order to his troops. "Men, for God Almighty's sake, quit shooting; it only makes them worse?"

Serve an Injunction on Disease By invigorating a feeble constitution, renovating a debilitated physique, and enriching a thin and innutritious circulation with Hostetter's Stomuch Bitters the finest, the most highly structioned, and the most popular tonic and preven tive in existence. It strengthons the stonach, remedies torpor of the liver and bowels, and gives a healthful impulse to the secretive and discharging functions of the kidneys and bladder Not only does it arrest and prevent the recurrence of malarial fevers, but it furnishes the only adequate safeguard against them to persons who have never been afflicted with those maladies, but would be liable to incur them if medicinally unprotected. It climinates from the blood certain impurities which the most skillful patholo gists assign as the exciting causes of those agonizing complaints, rheumatism and gout, and it is, moreover, an excellent remedy for an enfeebled or overwrought state of the nerves, and for mental de spondency.
